**3. Public Comments**

**A.** A Crenshaw Boulevard resident shared that non-residents park on the local streets. Non-residents continue to park in the alley and no parking officers have been seen at the perimeters. Resident requested further enforcement action from the police and parking. Residents have done their part by signing up for the Parking Permit Program. The resident also added that multiple accidents had occurred and there were no Inglewood Police Officers to assist with the call. Finally, the resident would like to know who will be the next District 4 Commissioner to better assist the resident.

**B.** A 118th Street resident opposed the parking permit program. The resident feels it is not a family friendly program. The resident has contacted the City Council Commissioner for information to remove the program from the city. The resident asked to be removed from the parking district program as District 11 is not near Sofi Stadium and is not affected. Parking Permit District #11 is more qualified for inactive status as is Permit Parking District #3 in Council District 2.

C. An Oak Street Resident claimed that the City does not need to implement this permit parking program. Also, the resident is against the process for the third and fourth parking permits. Parking on Arbor Vitae street was mentioned by the resident who stated that the City should look into providing access for the resident to park. **6. Public Hearing:**

A. Request to Amend the Citywide Parking Permit Program on 80th Street between 5th Avenue and Maitland Avenue

1. The program is inconvenient and does not provide any support to residents. This also creates more traffic and stress for the resident to handle as normal on a daily basis.
2. The block has plenty of parking for residents. The program will create chaos for the community, family, friends and others. Additionally, the two-hour limit is not sufficient.
3. The residents suggested that the block is not affected by the events at SoFi Stadium.
4. The residents do not want to play musical car in their own home just to fear a citation.
5. Residents asked how it was determined to only give residents two tickets and are against the process for the third and fourth parking permits.
6. Residents stated that Sofi Stadium should provide parking for residents and any spectators instead of making residents pay for street parking. Finally, the cost of parking will impact residents' budgets, as some residents have college students and more than two family members in one household.
